The Beautiful Azalea

GROWERS OF
High-Grade Nursery Stock

FOLEY

::

ALABAMA

The Indispensable *Abelia Grandiflora*

To Our Friends and Customers

WE ARE proud to present our 1927-1928 Catalogue, an improvement over our 1926-1927 edition. During our 1927 shipping season we filled more orders and shipped more plants than we ever had in any one season. This season we are now offering a larger and more complete line of Nursery Stock than ever before. All our stock must conform to the same high standard we have maintained in grading our plants in the past, and we invite your consideration of our new offerings.

It has been our constant endeavor to build our reputation on Square Dealing and Quality Plants at Reasonable Prices. We believe in Square Dealing not only because it pays in dollars and cents, but it is the only foundation upon which a lasting and satisfactory business can be built. The many letters received from our customers each year praising our plants and business methods, testify that we are building upon this firm foundation. We pledge ourselves to a continuance of this policy.

Our soil here is peculiarly adapted to plant growth, and practically all kinds of plants are grown here to a perfection that is seldom attained in other sections of the country. Plants grown on this soil develop a wonderful root system and possess the stamina and hardness to withstand transfer to other soils and climatic conditions. That is why we are able to furnish plants equal to any, and superior to many offered at much higher prices.

In writing this Catalogue we have endeavored to give clear, concise descriptions of varieties as we found them, carefully avoiding exaggeration or painting of extravagant pictures to attract attention. When you order from us you know that everything will be as represented. Furthermore, we live at the Nursery and are actively engaged in the business. Every order receives personal attention both in the office and the packing house.

While we urge the policy of early ordering, we wish to especially emphasize it this year, as the demand will be heavy and supply limited in some lines.

We hope to receive your orders again this season, and with best wishes for a prosperous 1928, we remain,

Very truly yours,

PERFECTION NURSERIES,
H. L. WINBIGLER, Sec'y-Treas.

Terms of Business

Location: Office and Nurseries

FOLEY, BALDWIN COUNTY, ALABAMA, On the L. & N. Railroad

INVITATIONS TO VISITORS.—We take pleasure in showing our stock to persons interested. If notified in time, we will meet visitors at the station on arrival.

APPLYING PRICES.—Five, fifty and five hundred trees of one class, at ten, hundred and thousand rates, respectively, purchaser's selection from varieties of one fruit having a common price. For instance, fifty or more peaches, in one or more varieties, would come at the hundred rate, and five hundred or more at the thousand rate. The foregoing does not apply to badly assorted orders, or to long lists made up of a few each of many varieties.

TERMS.—Cash with order, if for immediate shipment. Orders for trees to be held for some weeks after the shipping season opens should also be accompanied by full payment. On orders booked in advance of shipping season, 25 per cent. down, with the balance due when the shipping season opens. We do not care to ship C. O. D.

REMITTANCES.—To secure safety and prompt acceptance, remittances should be made by Bank Draft, Express or Post-Office Money Order, Registered Letter, Prepaid Express, or Certified Check.

METHOD OF SHIPMENT.—Shipping directions should be plainly written, and we urge our customers, in all cases, to use our order sheets. We shall be pleased to forward additional ones upon application. Kindly indicate whether shipment is to be made by freight, express or mail. When method of shipment is left to us, or when no directions are given, we will ship according to our best judgment, by such means as we believe to be in the best interests of our customers.

TRANSPORTATION AT PURCHASER'S RISK AND EXPENSE.—All transportation charges are to be paid by purchaser, and our responsibility ceases upon delivery to forwarding companies. Claims for losses or damages must be made upon the latter. We will, however, start a tracer for delayed shipments, if notified, and use every means at our command to secure prompt delivery, or recovery in case of damage or loss.

SHIPPING BY PARCEL POST.—In ordering trees or plants for shipment by Parcel Post, add 25 per cent to the list price, to cover cost of packing and postage.

TIME OF SHIPMENT.—Unless instructed otherwise, orders received during the shipping season will be forwarded as soon after their receipt as possible, and orders booked in advance will be shipped as soon as may be after the shipping season opens.

SHIPPING AND PLANTING SEASON.—November to March for all trees and shrubs grown in the open field. Balled and pot-grown plants may be shipped at any time. Shipments from March to November should go by express or post. Prices in this catalogue cover the shipping season of 1927 and 1928, ending first of May, 1928.

SELECTING VARIETIES.—Suited to locality is of the first importance, and can often be more advantageously done by ourselves than by purchaser. We are always glad to aid our customers in their selection, when so desired, and will, upon request, cheerfully furnish additional information in regard to the adaptability or desirability of particular varieties.

SUBSTITUTION.—It is our desire to furnish stock exactly as ordered. On orders for commercial planting, substitution of varieties will not be made without permission from customer. On small orders, items which we are unable to supply will be omitted unless we are instructed to substitute.

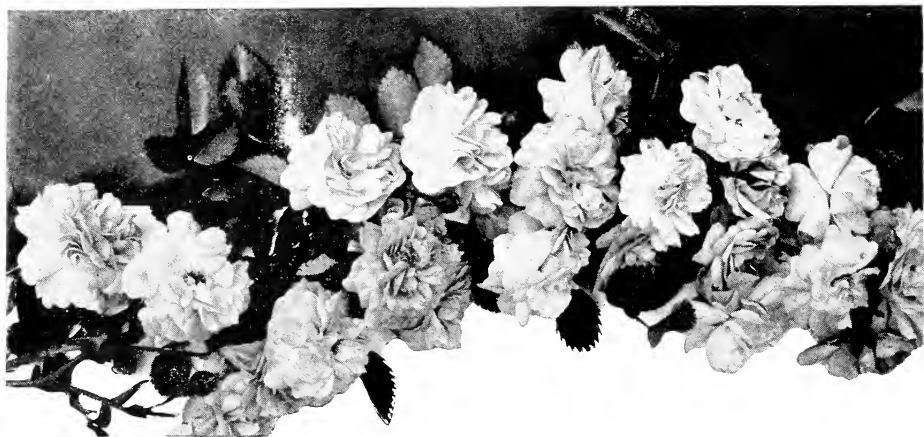

Printed Labels attached to everything sent out.

WE GUARANTEE all stocks sent out to be well rooted, well grown, true to name, properly packed, and shipped according to instructions. Our liability under the foregoing guaranty is limited in amount to the original price received.

CLAIMS.—If, by any possibility, errors should occur they will be promptly rectified, if claim is made within five days after the receipt of the goods.

H. L. WINDBIGLER,

Secretary-Treasurer.

Beautify Your Home With Roses

The Queen of all flowers, in their beauty can be yours, in all their colors. In the past season we delivered these beautiful flowers all through the Southland. Our Roses grow to perfection, and will bloom the first season; their beautiful blooms will, like incense, prove a benediction of gladness and contentment to you, your family and your friends. We ship anywhere in the U. S. A. proper, and guarantee safe arrival.

Plant Roses—plant lots of them. Buy direct—the best grown Grafted Rose Plants in the Southland. Our prices give no idea of the value.

We will furnish specimen plants of any variety we grow at \$1.00 each.

Abbreviations Used: T—Teas. H. T.—Hybrid Teas. H. P.—Hybrid Perpetuals. H. W.—Hybrid Wichuraiana. Mult.—Multiflora. N.—Noisette.

Roses De Luxe

YELLOW AND SALMON ROSES

Mme. Francisca Kruger. (T. Bush.) A very free bloomer, copper-yellow, shaded pink on the outer petals. A fine rose, a continuous bloomer. 50c each.

Sunburst. (H. T. Bush.) One of the finest yellow roses, in color coppery yellow with golden orange in deeper shades; immense buds, long and pointed on stout stems. A magnificent bush rose. 70c each.

Madam Butterfly. (H. T. Bush.) A free bloomer, with beautiful buds of Indian ochre with yellow at the base, and intermediate tones of clear brilliant shades of coral, opening into semi-double flowers. 50c each.

Emily Gray. (H. W. Climber.) A new yellow rose with long buds and golden yellow flowers that are semi-double that do not fade. A vigorous grower and fine for porch or pergola. 70c each.

Climbing Perle des Jardins. (T. Climber.) There is no more satisfactory climbing

Rose than this. In our opinion it is a better Rose than Marechal Niel, which it closely resembles. The new foliage is a beautiful wine-color. It is free blooming. 70c each.

Mary Wallace. (H. W. Climber.) A new Rose (by Dr. Van Fleet; introduced by the American Rose Society in 1924). Large, very bright pink flowers illumined with shining gold; cup shaped, moderately fragrant. Plant 10 to 15 feet high, and has superb foliage. 70c each.

President Wilson. (H. T. Bush.) A beautiful Rose, fine buds, pink with a shade of salmon. At its very best in open flowers, has proven to be a showy and dependable garden rose. 50c each.

Marechal Niel. (N. Climber.) The most famous and widely known rose grown in the South today. The flowers are a wonderful shade of clear yellow, and need no further introduction. 50c each.

Jennette Heller. (T. Bush.) Grows anywhere, perfectly hardy, always in bloom, a beautiful blending of shell pink in the center, shading off to a rosy blush and pale yellow; buds long, pointed and of immense size. 70c each.

WHITE ROSES

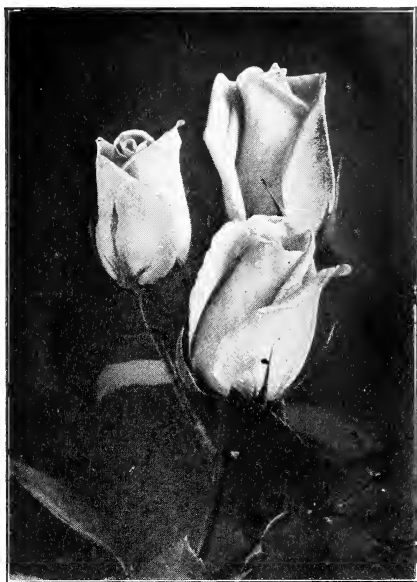

Kaiserin Augusta Victoria. (T. Bush.) This is one of the most popular of the white roses, owing to its continuous blooming, pointed buds; the large double flowers are glorious in their perfection. 70c each.

Frau Karl Druschki. (H. P. Bush.) Sometimes called the White American Beauty. Buds fine and large, usually pure white, but sometimes with a slight shading of pink on the outer petals. The open flowers are of great size and the cluster of deep yellow stamens adds a touch of color at the center. A heavy growing rose and extremely hardy. 50c each.

Margaret Miller. (T. Bush.) Silver white, with delicate shaded center; vigorous grower, a constant bloomer. A rose well liked. 70c each.

Etoile de France.

Killarney.

Killarney. (H. T. Bush.) Identical with the Pink Killarney, of which it is an offspring except in color, which is glistening white. One of the most beautiful roses in the bud. 70c each.

Maman Cochet. (T. Bush.) Of the same habits, size of bloom and delicate fragrance as the Pink Cochet, but of pearly white shading to a most delicate pink that it is easily ranked as one of the best roses. 50c each.

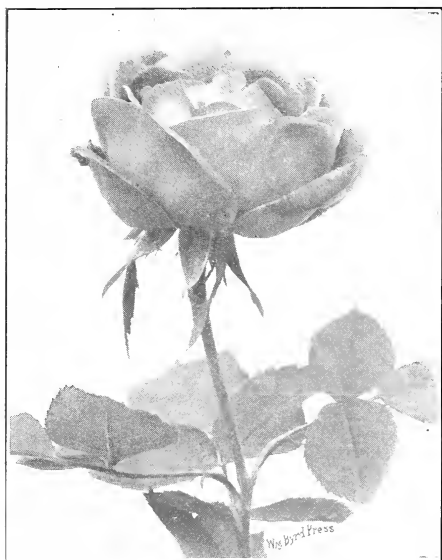

Devoniensis. (T. Climber.) It is perhaps the strongest growing of the tea roses. The flowers are white, delicately shaded pink. It is a favorite with all who know it. 50c each.

RED ROSES

Etoile De France. (H. T. Bush.) Lovely shade of clear velvety crimson. Fine form, buds borne on strong stiff stems; good grower and very heavy bloomer; one of the best; medium spreading growth. 50c each.

American Beauty. (H. W. Climber.) A strong, healthy, vigorous grower, frequently making shoots 10 to 12 feet long; good size flowers for a climber, blooming so freely; color a pleasing rose pink. 50c each.

General Jacqueminot. (H. P. Bush.) A vigorous grower producing flowers of brilliant crimson. This is a favorite. 50c each.

Red Radiance.

Reine Marie Henriette. (T. Climber.) It is one of the finest red climbers; the buds are cherry red, large and pointed, and the large open flowers are no less beautiful. A very fine growing rose. 50c each.

Virginia R. Coxe. (H. T. Bush.) Also called Gruss an Teplitz, one of the reddest of roses; heavy bloomer and very fragrant. 50c each.

Red Radiance. (H. T. Bush.) Vigorous grower, very heavy bloomer, fragrant, long stiff stems; one of the best roses for the South. 50c each.

PINK ROSES

Mrs. Chas. Bell. (H. T. Bush.) A vigorous grower and extremely free bloomer. In color it is a shell pink with salmon shading at the base of the petals, the most delicate of pink roses. 70c each.

Pink Radiance. (H. T. Bush.) Finest pink rose we know. The buds are rather rounded, the flowers cup-shaped, a beautiful shape of soft carmine pink. Flowers very large, sweet scented, borne on long stems, superb as a cut flower; a strong growing variety. 50c each.

Pink Killarney. (H. T. Bush.) A strong sturdy upright grower; the buds are exceedingly long and the flowers immense in size; a deep brilliant, sparkling shell pink; a constant bloomer. 70c each.

Maman Cochet. (T. Bush.) Rose color, shading to a silvery hue. A splendid rose of good habits. Fine for cut flowers; large size and opening into full, double bloom of marked fragrance. 50c each.

Tausendscheon, or Thousand Beauties. (Mult. Climber.) Bright clusters of blossoms varying in color from flushed white to rosy-carmine. A vigorous hardy climber with few thorns. 50c each.

Dorothy Perkins. (H. W. Climber.) Shell-pink; extremely hardy, vigorous and free blooming. Withstands the most severe winters. Shoots frequently grow 10 to 15 feet in one season. The flowers are borne in immense clusters of 30 or 40. They are perfectly double, and excellently adapted for cutting and decorating. 50c each.

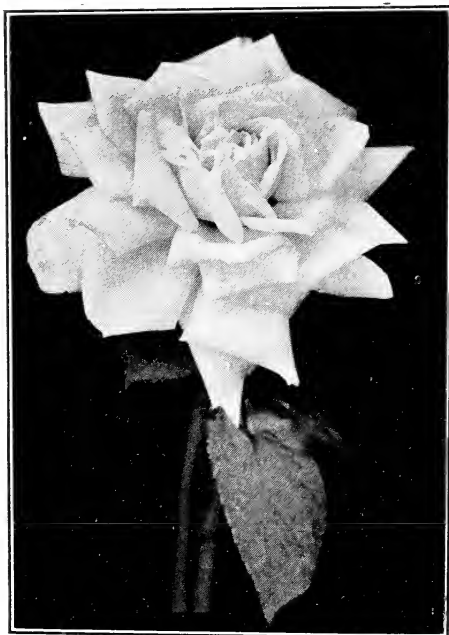

STANDARD or TREE ROSES

We have for this season a limited number of Standard Roses to offer, in Radiance, Red Radiance, K. A. Victoria. Each \$2.00.

SPECIAL OFFER

One doz. of any of the 50c Roses for \$5.00

One doz. of any of the 70c Roses for \$7.50

Maman Cochet.

BROAD-LEAVED EVERGREENS

Let Us Plan and Plant Your Home With These and Other Shrubs

Broad-Leaved Evergreens have become one of the most important items for beautifying your home.

A good planting serves two purposes, utility and beauty. In the case of deciduous trees we need them for their shade, to add coolness to porches and rooms otherwise exposed to the hot summer sun as well as for their lights and shadows which break the bareness of plain walls. Some are also used with taller growing shrubs and evergreens to screen unsightly views and draw the eye through vistas to more attractive spots. With screening go borders and hedges which serve to define property lines and make pleasant groups. Even in small borders there are many flowering shrubs to select, and color effects of bloom and berries may be obtained for many months.

Every house has its own individuality, needing individual treatment to blend it into its surroundings. The foundation planting of a small house demands most careful thought, as the future result must be considered and not simply the immediate effect. A poorly balanced planting after a few years will defeat its purpose.

GARDENIA (Cape Jasmine)

Very popular evergreen shrubs with bright, glossy foliage. Hardy as far north as Virginia and Tennessee. They do well in almost any well-drained soil. Large fragrant waxy white flowers are freely produced in spring time. Prices:

Small—50c each, 3 for \$1.25.

Medium—\$1.00 each, 3 for \$2.75.

Large—\$1.50 each, 3 for \$4.00.

Extra Heavy B. & B.—\$2.50 each.

OLEANDERS

In evergreen shrubs this is one of the very best for the South, with its long narrow green leaves and well colored flowers, which make it a great favorite with all. We have fine plants in Red and White, of the very best. Prices: Medium 50c; Large 75c; Specimen \$1.25.

CAMELLIA JAPONICA

This is one of the best flowering broad-leaved evergreens; leaves of a deep glossy green with flowers of an extremely beautiful waxy petals blooming during the winter months. No Home garden is complete without several plants in its collection. To get best results Camellias should be planted in partial shade where protected from cold winter winds and hot afternoon summer suns. Any good garden soil is suitable, but if mixed with leaf mold and well rotted cow manure better results will be obtained. The plants should be kept thor-

Nandina Domestica.

oughly mulched at all times with well-rotted leaves. Our plants are all double flowering in mixed shades of pink, red, white and variegated. Prices: 8 to 12 inch, \$1.00; 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.50; 18 to 24 inch, \$2.00.

TEA PLANT (Camellia Thea)

An evergreen shrub usually reaching a height, with us, of 8 to 10 feet unless pruned back. Large, oval, serrate leaves; white, fragrant flowers, $1\frac{1}{2}$ to 2 inches in diameter. A very fine hedge may be made with Tea plants. They stand pruning well. Price—8 to 12 inch, 50c each.

PHOTINIA GLABRA

This is a new introduction of Japanese broad-leaved evergreen, the foliage of which becomes very beautiful with its new growth of burning scarlet, giving a very attractive effect when planted between evergreen conifers. Although it is adaptable to almost any climate or soil, it thrives particularly well in the southern part of this country. Prices: 2 to 3 feet B. & B., \$3.00 each.

NANDINA DOMESTICA

(Japanese Nandina)

A beautiful upright-growing shrub, with numerous reed-like stems springing from the same root. Leaves deep, glossy green, when young tinged with red. In winter beautiful coppery tones are assumed; white flowers produced in long panicles, followed by masses of small, bright red berries, which are retained all winter. Hardy at Washington, D. C. Ultimate height, 10 ft. Prices: From 4 inch pots, \$1.00; 12 to 18 inch B. & B., \$1.75; 18 to 24 inch B. & B., \$2.50 each.

PITTOSPORUM TOBIRA

(Tobira Pittosporum)

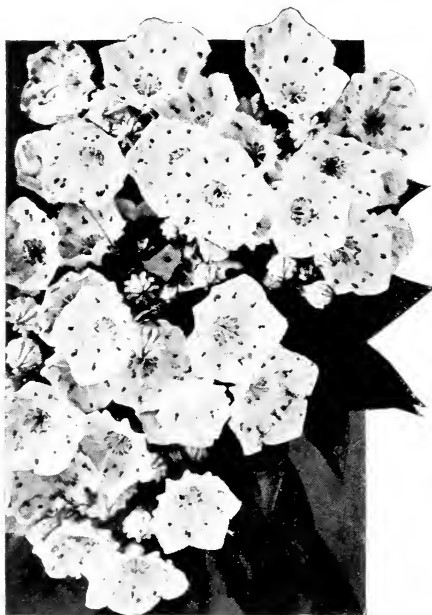

A fine shrub, with dark green leaves clustered at the end of the branches. Plant is of compact growth; flowers yellowish-white, very fragrant, produced the middle of April and last a long time. A splendid shrub for specimens or massing, and can be trimmed in fanciful shapes.

Each. 10.

18-24 inches, heavy, from open ground	\$2.00	\$17.50
15-18 ins., well-branched, from open ground	1.50	12.50
12-15 ins., branched, from open ground	1.25	10.00
10-12 ins., branched, from open ground	1.00	8.00

MICHELIA (Banana Shrub)

Michelia fuscata. (Magnolia fuscata.) (Banana Shrub.) In the South one of our most popular and desirable evergreen

Mountain Laurel.

shrubs. From early April until June the plant produces a quantity of yellowish-white flowers edged with maroon. The Banana-like fragrance is so pronounced that it is recognized several yards from the plant. In the North this is a very desirable conservatory shrub. Medium, \$1.25; Large, \$1.50.

KALMIA (American Laurel)

Kalmia latifolia. (Mountain Laurel.) A beautiful native, broad-leaved evergreen shrub, often attaining the size of a small tree. Its thick, waxy leaves are retained the year round, giving a striking effect. The pink and white geometrically shaped buds appear and expand into beautiful white and flesh-colored flower cups. Of greatest value for massing, making a handsome effect in the landscape. 8 to 12 ins., 75c each; 12 to 18 ins., B. & B., \$1 each.

EUONYMUS

Sieboldiana. A highly desirable evergreen shrub of arching growth. Well suited for mass planting. In the fall almost covered with red seed, suspended from floral envelopes. Prices: 12 to 18 inches, 50c each; 18 to 24 inches, 75c each.

LIGUSTRUM (Privet)

None of our broad-leaved evergreens give a greater form of foliage and growth than Ligustrums. For groups or individual specimens there is nothing more desirable.

Ligustrum amurense. (Amur Privet.) True: from the Amur river in China. A very rapid and compact grower; foliage small. The best evergreen variety for hedges. It is also desirable for single specimens or wind breaks. In rich soil will attain a height of 20 to 30 ft. Prices: 1-year, 10c each; \$4.50 per 100. 2-year, 20c each; \$12.00 per 100.

Ligustrum lucidum. A beautiful form of Japanese Privet. Leaves large, thick, ovate, lanceolate, of a very dark shining green. Large heads of white flowers produced in May, followed by black berries, which are retained throughout the winter. Hardy at Baltimore. A most desirable variety. Attains a height of 20 feet.

Ligustrum nepalense. (Nepal Privet.) Resembles the Japanese Privet, but of smaller and more compact growth, and leaves somewhat smaller. A desirable variety in every respect. Ultimate height, 10 to 15 feet. Prices: 24 to 30 ins., \$2.00 each; 18 to 24 ins., \$1.50; 15 to 18 ins., \$1.00; 12 to 15 ins., 75c.

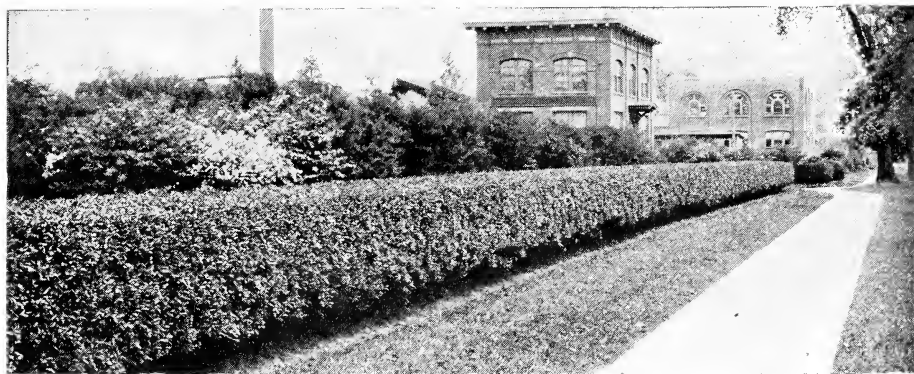

Ligustrum japonicum. (Japanese Privet.) A very handsome broad-leaved variety, with large, dark green leaves. Flowers produced in panicles followed by purple berries, which are retained during the winter, giving the plant a very pleasing appearance. This plant can be grown into a small tree, can also be trimmed into pyramidal, standard or other forms. Ultimate height, 20 to 30 ft. Prices: Each. 10. 3 to 4 ft., well-branched.....\$1.00 \$9.00 2 to 3 ft., well-branched..... .75 7.00 18 to 24 ins., well-branched..... .60 5.50 12 to 18 ins., well-branched..... .40 3.50

Cherry Laurel.

CHERRY LAUREL

This fine broad-leaved evergreen is a native of the South. The leaves are large, bright, shiny. When grown to full height, it reaches 30 to 40 feet. It may be pruned in any desired shape. Makes a very fine hedge. Prices: 8 to 12 inch, 40c each; 12 to 18 inch, 60c each.

Sheared Privet Hedge.

ILEX (Yaupon)

Small leaves of a glossy green, bearing immense quantities of berries, turning a bright red in early autumn and remaining until early spring. Prices: 40c each. Specimen plants, 75c; extra large, \$1.25.

ILEX (Holly) (American)

The Christmas Holly. Its bright green leaves and brilliant scarlet berries make it one of our handsomest evergreen shade trees. Prices: 2 to 3 ft., 50c each; 3 to 4 ft., \$1.00 each; 4 to 5 ft., \$1.50 each.

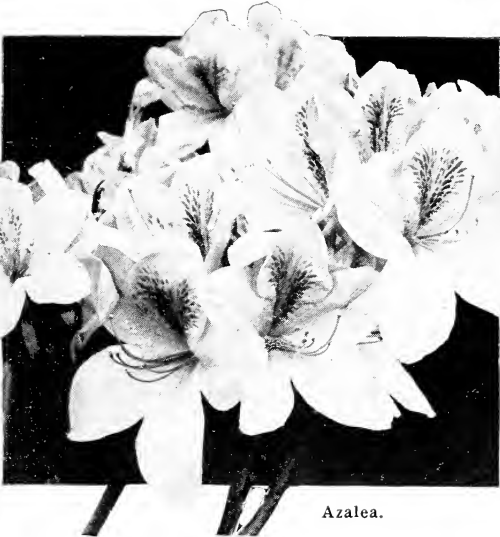

BOTTLE BRUSH

A beautiful evergreen shrub reaching a height of about 15 feet. Leaves narrow, dark green; flowers bright red in cylindrical brush-like spikes, opening in April and continuing in bloom several weeks. Hardy in north Florida and southward. Price: 4-inch pots, \$1.00 each.

PLUMBAGO

Capensis. A very showy, low-growing evergreen shrub producing an abundance of light blue flowers.

Capensis alba. A white-flowered form, similar in every way to the blue variety. A desirable white shrub. Prices: 2¼-inch pots, 40c each; 4-inch pots, 80c each.

Azalea.

AZALEA

The Azalea is among our most handsome shrubs, producing an abundance of flowers in early spring. In making up the bed, rotten leaves, wood mold or muck and decomposed cow manure should be used liberally. Lime stone soil should be avoided. After planting, once or twice a year they should be thickly mulched with leaves from hardwood trees. Half shady situations are well adapted, or they may be planted in full sunshine, providing they are well mulched. The drainage should be good and water should be supplied abundantly. Good care given an Azalea bed will produce a wealth of bloom in early spring that cannot be surpassed in beauty and grandeur. We have an extra fine stock of plants to offer this season in all shades of pink, red, purple and white. These plants are not tender lath house grown, but strong field grown plants. All plants B. & B. Prices: \$1.00, \$1.25, \$1.50, \$2.50, \$3.50.

ABELIA

Abelia grandiflora. (Glossy Abelia.) One of our most beautiful, popular and satisfactory Broad-leaved Evergreens. The graceful, drooping stems and branches are covered with dark, glossy leaves which in winter assumes a metallic sheen. From early spring until frost this plant produces an immense quantity of trumpet-shaped white flowers tinged with pink, about an inch long, which are borne in clusters. During the growing season it is advisable to pinch off the ends of the long shoots. This will make the plant dense and compact. For single specimens, for groups, or for a hedge we cannot too strongly recommend this plant. Hardy as far north as Philadelphia. Has also been successfully grown in sheltered positions in Massachusetts, and, even when partially killed back, the young shrubs flower profusely the same season.

	Each.	10.	100.
1 year plants.....	\$.25	\$2.00	\$18.00
2 year plants.....	.50	4.50	40.00
Specimen Plants, 3 to 4 ft.,			
B. & B.	Each \$1.50		

THE object in planting the home grounds is to make a pleasing picture. To secure this result a planting plan showing the placing of all plants should be made showing the location of all permanent features, trees or shrubs now in place, the location of all buildings, boundaries, walks and drives now shown on this plan, the plants needed to complete your landscape. This will aid in carrying out your work of beautifying.

CONIFEROUS EVERGREENS

The greatest advantage of using Evergreens in beautifying the home grounds is that Evergreens retain their foliage the year round. By planting the proper varieties in their proper places wonderful results can be obtained with but little expense. It is necessary however to plant evergreens where they will get ample sunlight that they may show their true colors. If you are not familiar with the planting of evergreens and wish to plant at this time it will be a pleasure for us to furnish you with such information you may wish to help you get the desired results.

All Our Evergreens Are Dug with a Ball of Earth and Wrapped in Burlap To Insure Success in the Transplanting of Them.

PLANTING EVERGREENS

If you order evergreens have the holes all ready so that planting may be done immediately upon receipt of them. Handle carefully so that the ball of earth may remain intact. Place the evergreen in the hole prepared, burlap as well, cut the string and with a sharp knife cut the burlap all the way around the ball. Fill the hole half full of good rich dirt and soak well with water; as soon as the water has settled the soil fill up level with top of the ground. To insure success in the transplanting of evergreens, it is necessary that they be kept well watered until they get started.

BIOTA

Rosedale. An Arbor-Vitae of very compact rounded habit of growth, with a very dense feathery blue green foliage presenting a smooth uniform habit of growth, making it extremely attractive in all distinctive plantings either as specimens or groups where individual characteristic is desired.

This is the only evergreen of feathery foliage extremely attractive and can be used as borders along walks and drives, and is wanted by every one who visits the nursery, and is in heaviest demand of all our evergreens, and for this purpose we are offering in all the sizes special prices that will enable any who desire to beautify their grounds at extremely reasonable cost. Prices: 6 to 8 inch, 40c each; 8 to 12 inch, 60c; 12 to 15 inch, 75c; 15 to 18 inch, \$1.00; 18 to 24 inch, \$1.50; 2 to 3 feet, \$2.00.

Berkman's Golden Arbor-Vitae. A perfect gem for garden, lawns and formal plantings; it is of dwarf compact symmetrical habit of growth with a very beautiful golden yellow foliage, making it a very desirable Arbor-Vitae. Very showy. Prices: 15 to 18 inch, \$1.75; 18 to 24 inch, \$2.25.

Blue-Green Arbor-Vitae. This is a handsome Biota with bluish green foliage that does not change color in winter. It is a strong grower and soon makes fine, large, beautiful specimens which retain their good appearance, even when old. One of the most satisfactory varieties in its group.

Prices: 15 to 18 inch, \$1.50 each; 18 to 24 inch, \$2.00 each.

Pyramidal Arbor-Vitae. This beautiful tree grows close and compact, and the foliage is of a bright green at all seasons. It is one of the very best ornamental trees we have, as it combines all the good points of the Arbor-Vitae, and has many features distinctly its own. It requires no shearing or trimming, developing naturally into a perfect pyramidal form. For lawn or ceme-

Berkman's Golden Arborvitae.

Cedrus Deodara.

tery planting it is one of the most popular. Prices: 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.50; 18 to 24 inch, \$1.75; 24 to 30 inch, \$2.50; 30 to 36 inch, \$3.25.

The foregoing Arbor-Vitae are grown from cuttings, and will come true to types.

Chinese Pyramidal Arbor-Vitae. One of the tall and hardy variety, of pyramidal habit of growth, bright green foliage; very desirable for screen plantings. An occasional shearing improves symmetry of growth. Prices: 18 to 24 inch, \$1.25; 2 to 3 feet, \$1.50; 3 to 4 feet, \$1.75; 4 to 5 feet, \$2.50.

Chinese Compacta Arbor-Vitae. Bright green compact foliage with round dwarf habit of growth. This is the best of the Chinese Compactas. Prices: 12 to 15 inch, \$1.25; 15 to 18 inch, \$1.50; 18 to 24 inch, \$1.75; 24 to 30 inch, \$2.25.

There are many of our friends who prefer to order the small Evergreens, and grow on for their Specimen Plants, and for Hedges, and as so many ordered last season of these sizes we are again offering in the Pyramidal and Compacta types of the Chinese Arbor-Vitae plants that will make fine Evergreens. Prices: 6 to 12

inch, 25c, 3 for 70c. 12 to 18 inch, 35c, 3 for \$1.00.

COLUMNAR ITALIAN CYPRESS

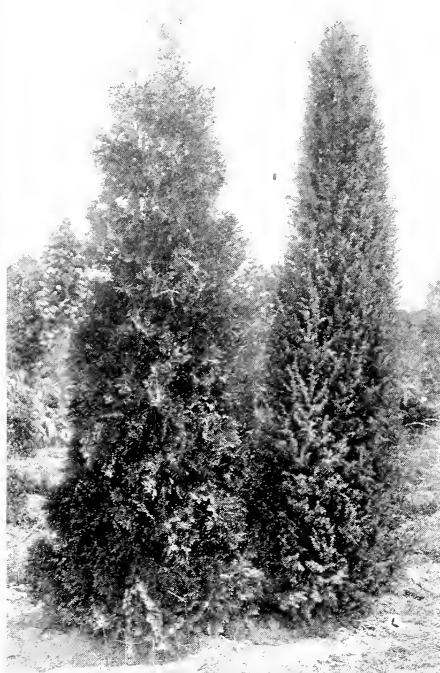

This well known and popular evergreen is most desirable where formal effect is desired. It is of a compact shaft-like habit of growth and very desirable. Prices: 18 to 24 inch, \$1.75.

IRISH JUNIPER

This magnificent tree is the best of the Junipers from the standpoint of beauty and hardness; slender and tall with numerous closely pressed upright branches giving a very striking effect. Prices: 24 to 30 inch, \$2.50.

DEODAR (Cedrus Deodara)

One of the most satisfactory Evergreens for this climate. The tree attains a great height; the branches and foliage are extremely graceful, the foliage being of a beautiful blue-green color and quite feathery in appearance. Prices: 18 to 24 inch, \$2.50.

TWO WELL-KNOWN EVERGREENS
Pyramidal Arborvitae on left.
Irish Juniper on the right.

DECIDUOUS SHRUBS

It is seldom that a home in the country, suburb or town cannot be improved in appearance and greatly enhanced in value by the judicious treatment of the grounds, irrespective of size; and for this purpose many flowering shrubs lend themselves most admirably. Shrubbery, properly planted and massed, is most effective in bringing out certain features of the lawn, to screen some unsightly building or object, or to break the outline of foundation walls.

Along the drive, the walk or the edge of the lawn, borders of shrubs may be planted that will give a succession of bloom from early spring until frost. Even after the leaves have dropped, the brilliant berries and branches of many varieties add cheer and color to the winter landscape. Frequently one finds a spot that suggests the use of an individual specimen—a variety should be selected that will develop symmetrically.

PLANTING AND CULTIVATING SHRUBS

We strongly emphasize the necessity of keeping the ground free from weeds and grass, and loose by frequent stirring, after being planted.

The success of your plants depends upon proper pruning. All deciduous shrubs should be pruned annually. The tops and branches should be cut back one-third, all dead branches and weak growth should be removed, and care must be exercised not to cut off the blooming wood. All shrubs that flower on the previous year's growth should not be pruned until June or July, after the blooming period has passed. To this class belong the Altheas, Deutzias, Forsythias, Philadelphus, Spirea, etc. Do not fail to fertilize your shrubs at least once a year.

Althea.

ALTHEA, Rose of Sharon

Our **Pride Althea**. This is our finest Althea, being of very formal habit of growth, reaching a height of about 8 feet. A most profuse bloomer throughout the entire growing season; producing flowers of 4-inch diameter; outer petals white ton-

ing to deep red at throat. Prices: 25c each, 3 for 65c. Specimen Plants, 40c.

Boule De Feu Althea. This beautiful Althea is called Ball of Fire owing to its beautiful flowers, double and very large in size; good bloomer and attains a height of about 6 feet. Prices: 25c each, 3 for 65c. Specimen Plants, 40c.

Snow Queen Althea. This Althea reaches a height of about 10 feet, and is covered with a mass of pure white flowers during the growing season. It is the best white Althea and will grow in any soil. Prices: 25c each, 3 for 65c. Specimen Plants, 40c; 5 to 6 feet, \$1.00 each.

Purple Glory Althea. Semi-double flowers of light shades of purple; good bloomer and a very heavy grower. Prices: 25c each, 3 for 65c. Specimen Plants, 40c; 4 to 5 feet, \$1.00.

HEDGING

The following named plants are recommended for Hedging, which are listed and described under their separate headings:

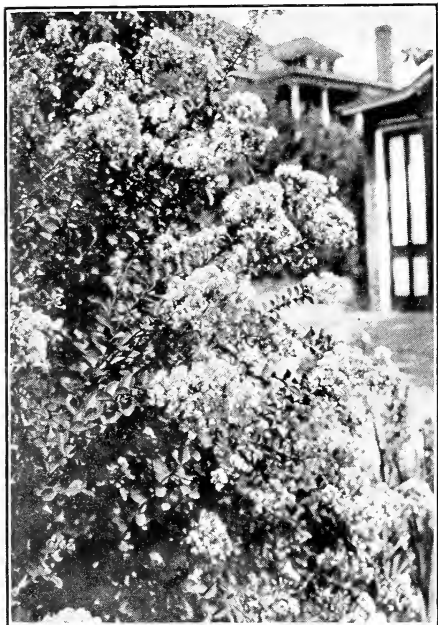

Amoor River Privet

Abelia Grandiflora

Spirea

Thuja Arborvitae

Ligustrum Japonicum

Crepe Myrtle.

BUDDLEIA

Important evergreen shrub of recent introduction. The flowers are produced in terminal racemes and somewhat resemble lilacs in general appearance. During the summer they remain constantly in bloom and attract butterflies in great numbers. A well-grown bed of Buddleias with butterflies of many different colors flitting over them is a unique and pleasing sight. Excellent for cut-flowers. Price, 60c each.

CREPE MYRTLE (*Lagerstroemia Indica*)

Favorite flowering shrub of the South; hardy and a heavy bloomer, it paints the landscape in summer months with its brilliant blossoms in tones of crimson, red, white, pink, and other colors. Frequently called the "Lilac of the South." Combinations of Crepe Myrtle colors makes the most exquisite effect. 25c each; 3 for 65c. Large size, 60c.

DEUTZIA

Pride of Rochester. Large, double white flowers tinged with pink; grows to good size specimens. 25c each; 3 for 65c. Specimen plants, 40c.

Deutzia Crenata. This is the outstanding shrub of the Deutzia family, of medium tall habit of growth; beautiful long pointed dark green leaves. This new and

exceptional Deutzia has beautiful large white flowers in great drooping panicles, blooming throughout the spring-time, far outstripping others of its family. Prices: 30c each, 2 for 50c. Specimen Plants, 75c.

FORSYTHIA

Forsythia or Golden Bell. Comes into bloom the first warm days of spring; their masses of bright yellow flowers are borne before the leaves appear. One of the first shrubs to bloom in spring.

Fortunii (Fortune Golden Bell). Of graceful upright habit, this variety is one of the best.

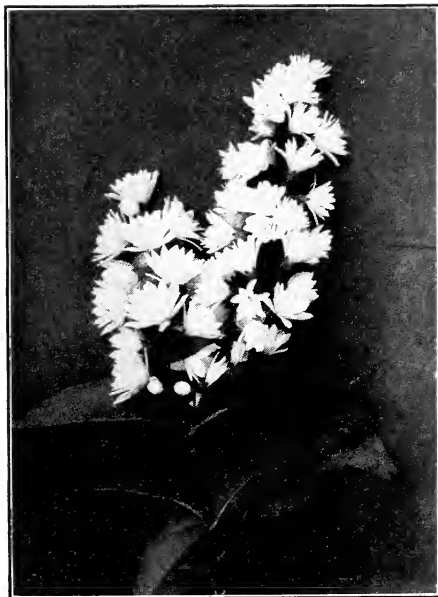

Intermedia. Bright golden yellow flowers on slender, arching branches; foliage a rich glossy green.

Viridissima. A fine variety with leaves and bark a deep green. Flowers deep yellow, blooming little later than the Intermedia.

Prices for the above varieties—25c each; 3 for 65c. Specimen plants, 40c.

HYDRANGEA

When given a rich, moist soil where they are protected from the sun, there is nothing more attractive than a mass of well-developed specimen Hydrangeas. They are very desirable when grown singly or in tubs. 25c each; 3 for 65c. Specimen Plants, 40c.

Flowers of Deutzia.

Flowers of Honeysuckle.

LONICERA (Honeysuckle)

White; a rapid growing evergreen vine; leaves dark green; flowers sweet-scented, white, changing to yellow. Produces a dense covering. 25c each; 3 for 65c.

LONICERA (Marrow Honeysuckle)

A Japanese variety producing a profusion of white flowers early in April, followed by a mass of bright red fruit in fall. A good growing shrub.

Lonicera Pink. A Japanese variety of medium growth, producing beautiful pink flowers in early April. Very showy.

Lonicera alba. Flowers pure white; blooms in spring, flowers lasting about six weeks. A good variety.

Prices on above varieties — 25c each; 3 for 65c. Specimen Plants, 40c.

PHILADELPHUS

Syringa or Mock Orange. Will be found highly desirable for growing with other shrubs; of strong vigorous growth. Blooms in early spring, flowers of pure white borne in large clusters. 25c each; 3 for 65c. Specimen plants, 40c.

SYMPHORICARPOS

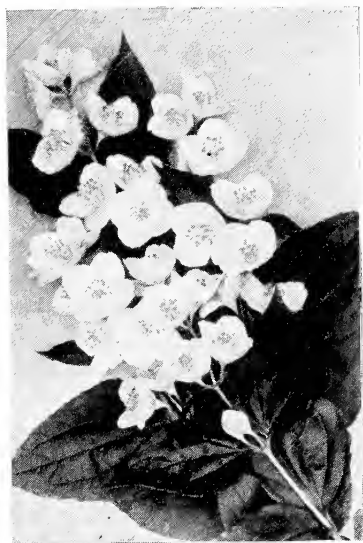

Coralberry or Indian Currant. A native shrub growing from New York to Texas, four to six feet tall; purplish red berries all produced in great profusion. They remain upon the plant all winter, making it especially desirable for landscape planting. 25c each; 3 for 65c. Specimen plants, 40c each.

PERPETUAL BLOOMING SPIREAS

Spiraea Anthony Waterer. A remarkable free flowering shrub with upright branches, leaves bright green with frequent variegation of yellow. If flowers are cut off as soon as they begin to fade, the plant will bloom the entire season. Very good for low-growing hedge or edging. Color red. 25c each; 3 for 65c. Specimen Plants, 40c. Extra heavy, 75c.

Spiraea Froebeli. A fine free growing sort; rosy colored flowers, produced in large flat heads, upright, and makes a very fine specimen plant; a new variety. 25c each; 3 for 65c. Specimen Plants, 40c. Extra heavy, 75c.

Spiraea Reevesiana. A compact branching shrub, 3 to 4 feet in height, producing a dense mass of pure white flowers; one of the best. 25c each; 3 for 65c. Specimen Plants, 40c.

Mock Orange.

Spirea Billardi alba. A tall growing variety; flowers white, produced in long dense panicles; commences to bloom in May and lasts through the summer. 25c each; 3 for 65c. Specimen Plants, 40c. Extra heavy, 75c.

Spirea Opulifolia, Bridal Wreath. Vigorous growing variety; white flowers, medium size. 25c each; 3 for 65c. Specimen Plants, 40c.

Spirea Billardi Rosea. An upright shrub reaching a height of 5 to 6 ft.; with dark brown branches and oblong leaves grayish beneath. Flowers pink in panicles 6 to 8 inches long. A constant summer bloomer. Fine as a cut flower. Prices: 25c each, 3 for 65c. Specimen Plants, 40c.

Thunbergi Spirea. A low bushy plant with very small delicate leaves in great abundance, and small star-like flowers in such profusion that in early spring the plant looks like a mass of snow. In the fall the leaves color up. Ideal for a low ornamental hedge or border. Prices: 25c each, 3 for 65c. Specimen Plants, 40c.

Spirea Van Houtti. Branches long and arching; leaves dark green; flowers produced in clusters along the branches. This Spirea is often known as "Bridal Wreath." 25c each; 3 for 65c. Specimen Plants, 40c. Extra heavy, 75c.

WEIGELA

Beautiful shrubs that bloom in April and May. The flowers are produced in so great profusion as to almost entirely hide the foliage. They are very desirable for the border or for grouping and also as specimen plants for the lawn. After blooming, all of the wood which bore flowers should be cut off, as the next season's flowers are all borne on new wood, consequently pruning will increase the number of flowers greatly.

Weigela Rosea.

Candida. Very beautiful green foliage; white flowers; blooms in the early spring. Prices: 50c each. Specimen Plants, 75c.

Eva Rathke. Hardly as vigorous as some of the other varieties, but perhaps the most beautiful of all; flowers a deep carmine-red. Prices: 60c each. Specimen Plants, 80c each.

Rosea. If you can have only one Weigela, by all means plant this variety, which is of vigorous growth. Flowers are a deep pink and borne in great abundance. Price: 50c each. Specimen Plants, 70c.

Variegata. Not so rank a grower as the preceding varieties. Foliage variegated green and white. Very attractive flowers, pinkish white and borne in great profusion. Prices: 60c each. Specimen Plants, 75c.

Amabilis. A medium-growing Weigela with excellent green foliage with flowers of deep pink on outer edge of petals shading to a delicate light pink in the throat and borne in large clusters. Prices: 50c each. Specimen Plants, 70c.

The Indispensable Spirea Van Houtte.

SPECIAL PLANTS

CHINESE HIBISCUS

This is one of the most striking and satisfactory shrubs, ranging in colors of pink, red and salmon shades. The plant is of quick growth and subject to frost injury, being cut down at about 28 degrees under ordinary conditions; still it has a strong power to recover, and will come on and bloom again in the springtime as vigorously as ever, and is also fine as a tub plant. Prices: 2½ inch pots, 20c each, 6 for \$1.00. 3 inch pots, 30c each, 6 for \$1.50.

GIANT-FLOWERING MARSHMALLOW

We offer this wonderfully improved Marshmallow with flowers of enormous size frequently 10 to 12 inches in diameter. These plants can be used in all kinds of plantings. They appear to be equally at home in all positions, having the same vigor in dry and wet ground, and are perfectly hardy. They grow 5 to 8 feet high, blooming with extreme profusion from early July until fall. We offer three distinct colors, Red, Pink and White, in strong two-year-old roots. Price, 50c each.

FLOWERING POMEGRANATE

These shrubs are among the most satisfactory for general planting. Beautiful flowers produced all summer, in a rich tone of red and white. Prices: Red, 25c each, 3 for 65c. White, 50c each.

Barberry

NEW RED-LEAVED JAPANESE

It is only once in a lifetime that a really worthwhile outstanding hardy shrub is introduced, but in this new Barberry we have such a plant. It is similar to the green-leaved barberry except the foliage of the new variety is of a rich, lustrous, bronzy red, becoming more brilliant throughout the summer, and in the fall changes to vivid orange, scarlet and red. In this coloring it is unequalled by any other shrub. The scarlet berries remain on the plant the entire winter. Prices: 1-year, \$1.00 each.

VINES

WISTARIA (*Wistaria chinensis*)

Magnificent, strong-growing, woody vines, hardy throughout the country. Leaves deciduous; the flowers are borne in large, pointed clusters, with or before the leaves in spring. Wistarias make handsome specimens when staked and grown as trees.

Purple. A very strong-growing sort, producing large panicles of purple flowers. Prices: 25c each, 3 for 65c. Extra heavy, 60c each.

White. A very fine variety, with large clusters of delicately scented white flowers. Prices: 40c each. Heavy, 60c each.

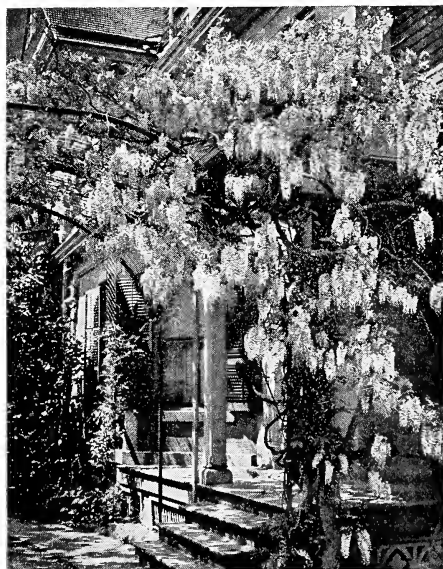

ENGLISH IVY (*Hedera helix*)

The well-known English Ivy. An excellent covering for walls and tree trunks. Succeeds best in shaded locations. Evergreen. Prices: 25c each, 3 for 65c.

ANTIGONON LEPTOPUS

(Mountain Rose)

A handsome vine with heart-shaped leaves, producing large racemes of rose-pink flowers; adapted to sunny locations. Prices: 25c each, 3 for 70c.

Wistaria.

SHADE AND ORNAMENTAL TREES

Trees are among the most important ornamentals and give quick results. They are invaluable as specimens, and as screens against objectionable views, or to secure privacy, and as barriers or windbreaks, for flowering effect, and for attractiveness of foliage and fruit. The intelligent tree planter readily appreciates the difference in values between a tree dug in the forest and one taken from our nursery where it has received proper care during the first years of its life.

The one is tall and slender with only a small top; the other is sturdy, with well-developed trunk and top that is the future beauty and usefulness of the tree. The root system is perfect, and when properly planted and pruned there should result a vigorous growth. Plant about two inches deeper than the tree originally stood in the nursery row, using the top soil for filling in around the roots. When the tree is planted, if the ground is very dry, it should be watered each evening to keep the tender bark on the roots from becoming too dry for the sap to flow.

Magnolia Grandiflora.

MAGNOLIA

Magnolia grandiflora. The grandest broad leaved evergreen tree of the Southern forests. Leaves bright shining above, usually coated with brownish tinge beneath; flowers large, beautiful pure white, lemon scented, produced throughout the spring months. 6 to 12 inch, 25c each; 2 to 3 ft., 50c; 3 to 4 ft., 75c; 4 to 5 ft., \$1.00. Specimens, \$1.50. Heavy, \$2.00.

CORNUS (Dogwood)

The large white flowering Dogwood, a most effective plant for the lawn. Prices: Small plants, 25c each; 2 to 3 ft., 60c; 3 to 4 ft., 75c; 4 to 5 ft., \$1.00.

Red Twig Dogwood. Small plants only, 25c each.

TUNG (Chinese Wood Oil Nut)

This tree is a very rapid grower, and is being planted extensively in Florida; the

oil from the nut being valuable for the manufacture of varnish. You can plant these trees along the lane or around the fences. It does well in Alabama. Prices: 2 to 3 ft., 25c each, 10 for \$2.00; 3 to 4 ft., 35c each, 10 for \$3.00; 4 to 5 ft., 50c each, 10 for \$4.50. Specimens, 65c each.

NELIA (China Tree) Texas Umbrella Tree

A variety of the China Tree. It has a dense, spreading head, resembling a gigantic umbrella. A most desirable tree of rapid growth. Ultimate height 25 feet. Prices: 25c each, 3 for 65c. 3 to 4 feet, 75c.

LIROIDENDRON (Tulip Poplar)

Tulipifera. (Tuliptree.) A magnificent, rapid-growing tree of pyramidal shape; foliage broad and glossy; flowers yellowish green, tulip-shaped. Value for street and lawn planting. Needs severe pruning when transplanting. Prices: 3 to 4 ft., 50c each; 4 to 5 ft., 75c; 5 to 6 ft., \$1.00.

PECANS

This makes a very desirable shade tree, in addition to its value for producing nuts for food. Described under Pecans.

WEeping WILLOW

A deciduous tree of weeping habit of growth, attaining a height of 25 feet with long slender olive green or purplish branches. As an ornamental tree it has no superior in its class. Prices: 3 to 4 ft., 75c each; 4 to 5 ft., \$1.00.

POPULUS

Carolina Poplar. An extremely strong growing tree with arching branches, making the top narrow and almost columnar or pyramidal with a dense foliage, and with more or less hanging small sprays on the under side of the head. This interesting and valuable rapid growing poplar becomes a landmark wherever planted. Prices: 4 to 5 ft., 50c each; 5 to 6 ft., 75c.

PALMS AND CYCADS

Palms are among the most striking plants which may be used for outdoor southern planting. The soil, if poor, should be thrown out, leaving a good size hole—fill with good rich soil, carrying with it one-third well-rotted stable manure. After planting, water freely and fertilize liberally, as palms are gross feeders and require plenty of plant food for their best growth. Organic fertilizers give the best results.

COCOS AUSTRALIS

A very beautiful, hardy Palm with grayish green, curved pinnate leaves. Deserves to be widely planted as it is one of the most desirable Palms. Prices: 3-inch pots, 40c each; 4-inch pots, \$1.00.

CYCAS REVOLTA

A palm-like Cycad reaching a height of 3 to 4 feet, with a handsome crown of deep green leaves curved outward from the center; very hardy. Prices: Medium size, 75c; Large size, \$1.00.

PHOENIX CANARIENSIS

A stately Palm with large trunk and

large pinnate, gracefully curved leaves; a very rapid grower; very hardy and one of the best for outdoor planting in the Gulf Coast country. Prices: 3-inch pots, 40c each, 10 for \$3.50; 5-inch pots, \$1.25 each. Large size plants, \$2.00.

WASHINGTONIA ROBUSTA

A splendid Palm with dark green fan-shaped leaves; hardy, well adapted to the country bordering on the Gulf of Mexico; it is a rapid grower and is being widely planted. One of the finest for landscape work. Reaches a height of 60 ft. Prices: In pots, 35c each, 10 for \$3.00; 5-inch pots, 75c.

Bulbs

CANNA BULBS

Cannas with their stately growth, decorative foliage in green and bronze colors and large showy clusters of flowers, are one of the most economical and effective garden plants. They are exceedingly hardy, doing well in almost any location and in any kind of soil (although they naturally will do better if given a little care. They are profuse bloomers, producing their large conspicuous flowers from early Spring until late in the Fall. They adapt themselves wonderfully for planting along fences, in front of tall growing shrubberies or for massing in large beds. That they also make desirable cut flowers is but little known, but a few stalks cut off and placed in a tall vase make a most attractive showing.

Apricot. 4 ft. Flowers have marvelous durability; unlike most Cannas, this rich Apricot variety is suitable for cutting. One 2 to 3 eye division, 15c; 2 for 25c, 6 for 50c.

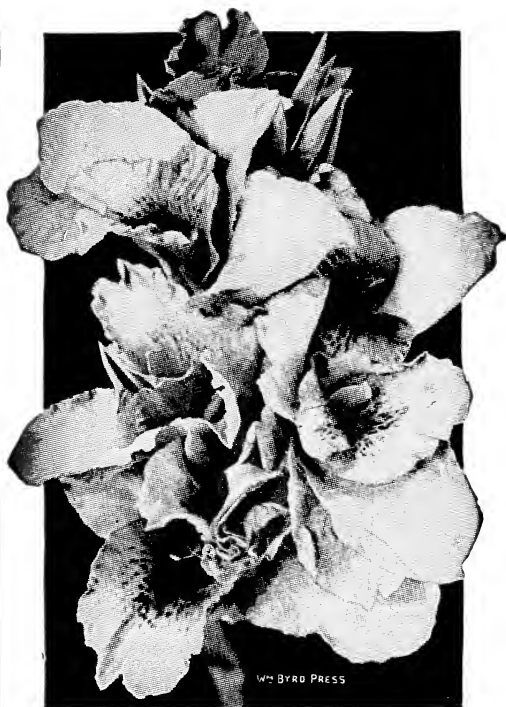

American Beauty. 5 ft. Richest colored Canna we know, oriental carmine; large flowers; green foliage. One 2 to 3 eye division, 20c; 2 for 30c, 6 for 75c.

Florence Hall. Beautiful green foliage and flowers on stems well above foliage; in color delicate shell pink, so many saying it looks like an Orchid. One of the very best. Grows about four feet high. One 2 to 3 eye division, 15c; 6 for 75c.

King Humbert. 5 ft. Fiery Red. Most popular and satisfactory Canna; large compact flower heads with large ruffled or orchid wide open blooms. Grows about 5 feet high. One 2 to 3 eye division, 15c; 6 for 60c, 12 for \$1.00.

Mrs. Alfred Conard. 4 ft. Salmon Pink. Stocky green foliage, surmounted by extra large trusses of 6 to 18 large flowers with large broad reflexed petals open at a time. Color extremely beautiful shade of very deep flesh pink to salmon pink; deeper in throat. Visitors were very enthusiastic about it. Grows about 4 feet high. One 2 to 3 eye division, 15c; 2 for 25c; 6 for 50c.

The President. 4 ft. Glowing Scarlet. Green foliage; extra large trusses on strong shafts well above foliage. Compact heads of gigantic bloom. The President is superior to any other red Canna with green foliage. Grows about 4 feet high. Two 2 to 3 eye divisions, 25c; 6 for 50c; 12 for 90c.

King Humbert Canna.

Flambeau. 5 ft. Orange striped with yellow. This is a Canna that every one who visits our flower gardens always likes—a bouquet in itself. Grows about 5 feet high. Two 2 to 3 eye divisions, 25c; 6 for 50c; 12 for 90c.

Eureka. 3½ ft. Creamy White. Foliage green, heavy, strong, low growth with large compact heads of large blooms. Grows about 3½ feet high. One 2 to 3 eye division, 15c; 6 for 50c; 12 for 90c.

Yellow King Humbert. Lemon Striped Red. 5 ft. Also called Queen Helen. Probably the most interesting Canna and very unique. Stocky green foliage but often shows bronze variations; very large flower heads and four large wide-open blooms at a time. Color is deep lemon yellow dotted red but shows red petals, half petals, sometimes whole heads of red flowers. Part red and part yellow blooms and both green and bronze foliage is often found on the same plant. Two Roots, 30c; 6 for 75c; 12 for \$1.00.

Nokomis. 5 ft. Flowers are a deep velvety red in large trusses, with foliage of beautiful red leaves. It is a new Canna, surpassing all others of its color. One 2 to 3 eye division, 15c; 2 for 25c; 6 for 50c.

King Midas. 5 ft. A new outstanding variety coming into great popularity, having large glittering gamboge yellow flowers borne on heavy trusses. Green foliage. One 2 to 3 eye division, 50c; 3 for \$1.00.

Razzle Dazzle. 4 ft. Another new Canna, Orchid-flowering, of a dazzling crimson maroon and yellow flowers, with green leaves. An extremely beautiful Canna. One 2 to 3 eye division, 50c; 3 for \$1.00.

Special Offer FOR CANNA BEDS

Nineteen gorgeous Cannas, all colors, mixed, large flowering, the finest of bedding plants, with one hundred Montbretias for the border to make a bed six feet in diameter.

Price, \$3.75.

CRINUMS

Sometimes called the Southern Lily. The sword-shaped leaves form a rosette from which very large fragrant flowers appear in immense clusters. Fine for planting along fences and center of beds.

Kirki. Soft delicate pink with a light red stripe down through each petal.

Capense. White striped, rose color on the back of each petal.

Capense alba. White and very fragrant.

Prices on the three varieties—20c each; 6 for \$1.00.

HEMEROCALLIS

Day Lily. Fine for border plants with large lily-shaped flowers borne on long stems. Very profuse bloomer. Fine for planting in front of shrubs.

Tawny Day Lily. Deep orange colors.

Prices on both—8c each; 6 for 40c; 12 for 75c.

EASTER LILY

Sometimes called Creole Lily. This lily is the best for outdoor planting in the South. The flowers are of purest white. No flower garden is complete without this Queen of the Lily family. 20c each; 6 for \$1.00; 12 for \$2.25.

CALLA

Godfrey Calla. A decided improvement over the old-fashioned Calla. A good grower with large flowers of purest white. More floriferous than the old variety and not such a tall grower. Prefers a rich, mucky soil. Potted plants in growth only, as we find the dry tubers very difficult to keep. 35c each; 10 for \$3.00; 100 for \$25.

BUTTERFLY LILIES

A straight upright growing plant with large clusters of fragrant snow-white flowers. Should be planted in good rich soil; requires plenty of water. 10c each; 6 for 50c; 12 for 90c.

AMARYLLIS (Johnsoni)

Sometimes called St. Joseph Lily. The color is a fine crimson scarlet with a broad white strip down the center of each petal. Very fine for pot culture. Large Blooming Bulbs, 35c each; 6 for \$2.00.

THERE is no more beautiful thing than a home and lawn well planted with the various flowering bulbs. Planted in masses, they give a color effect that is unsurpassed in artistic grandeur, and with this purpose in mind we offer none but the finest of bulbs.

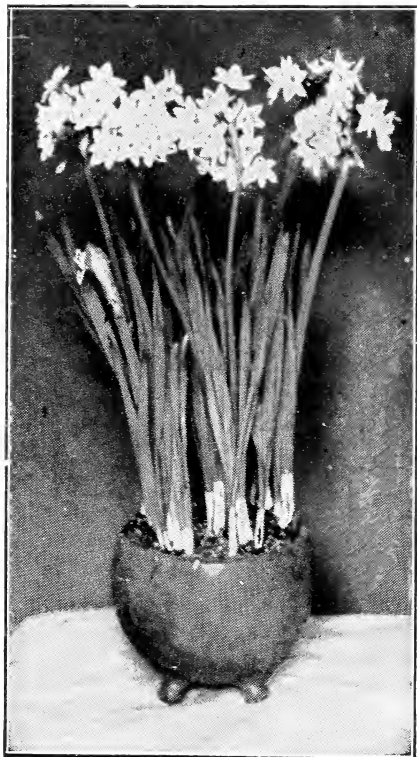

Godfrey Calla.

REGALE LILY

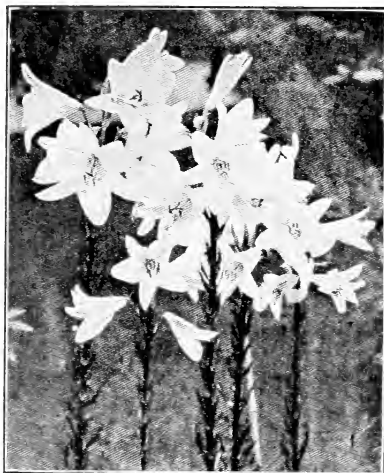

A new variety from China. It is absolutely hardy and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future; being so hardy may be grown at home. The flowers are white slightly suffused with pink, with a beautiful shade of canary yellow at the center. It is delightfully perfumed, reminding one of the Jasmine, lacking the heavy oppressive odor of most lilies. Flowering Bulbs, 50c; Large size, 75c.

WHITE SPIDER LILY (Western)

This grand Lily forms large imposing clumps that are a mass of clustered heads of pure white fragrant flowers. 20c each; 6 for \$1.00.

Paper White Narcissus.

Easter Lily.

Must Be Planted in Fall

NARCISSUS

Paper White Grandiflora. One of the most satisfactory of all Narcissus. Pure white and one that does well in pebbles and water. 10c each; 6 for 45c; 12, 75c.

Chinese Sacred. This bulb is a native of China. It is a strong grower, producing big clusters of pure white flowers with yellow cups. This is one of the best. Used in pebbles and water. Prices: 6 for 45c; 12 for 75c.

Groot Vorst or Staten General. One of the strongest growing of the Narcissus family. Large flowers of creamy tint with a deep yellow cup borne on long stiff stem. A great favorite. 10c each; 6 for 45c; 12 for 75c.

NARCISSUS IN MIXTURE

You receive all the different varieties and colors making a splendid mixture. Will add life and beauty to your spring garden. 5c each; 6 for 25c; 12 for 45c; 100 for \$3.00.

THE various NARCISSUS Bulbs should be planted in a bed of several rows in a deep rich soil, along the border and walks and around the foundation of building as well as in pebbles for indoor bloom.

We grow all our own Bulbs, and you are assured of getting the colors and varieties you order, when you order from the Perfection Nurseries

ZEPHYRANTHES (Fairy Lilies)

Lovely small plants with long narrow leaves and pretty lily-like flowers placed single on each stem.

Rosea. Very large and beautiful flowers of a clear rose color. 5c each; 6 for 25c; 12 for 45c.

Candida. Pure white flowers; fine for edging. 6 for 15c; 12 for 25c.

MOUNTAIN ROSE, sometimes called Maderia, Mexican or Antigonon Vine.

The Mountain Rose with its delicate and graceful growth is no doubt the most lovely of our typical Southern vines. The foliage is of a fresh light green color, and the flowers are a beautiful rose pink borne in racemes reaching to a length of two feet or more. Unsurpassed for covering porches, fences, old tree stumps. Blooms in August, September and October. From a distance it resembles a Rambler rose, hence the nickname. Tubers, 25c each! 3 for 70c.

MONTBRETIA

Few people have ever seen this flower with flower spikes similar to the Gladiolus blooming from early May until late frost. Beautiful as a border plant or for foundation plantings and unexcelled as a cut flower.

Crococmeaflora. Gold with a throat of burnt orange; very free-flowering bulb that succeeds admirably in the garden, producing its long many flowered panicles

of gold orange flowers. 6 for 25c; 12 for 40c; 100 for \$3.00.

Star of Fire. Inside of petals is vermilion while the outside is blood red. This is a new variety. Prices: 6 for 75c; 12 for \$1.25.

TUBEROSES

Mexican Everblooming. Single pure white flowers, excellent for cut flowers; easily grown; very fragrant. 5c each; 6 for 25c; 12 for 40c.

CALADIUM

Fancy-Leaved Bulbs. These come in all the colors of the rainbow, making fine plants for separate pots, window boxes or vases. As Fancy-Leaved Caladiums are very tender to cold, we advise you not to plant before March, but do suggest that you send your order early so as not to be disappointed. 20c each; \$2.15 per dozen.

Elephant Ear Caladium. Do not confuse this variety with the Fancy-Leaved variety. It grows 4 to 5 feet tall and has immense leaves shaped like an elephant's ear, hence the name. Very decorative and fine in single plantings or for groups. Large Bulbs, 15c each; 2 for 25c; 6 for 70c.

IN GROWING our Bulbs the greatest care is exercised to see that none but strong healthy bulbs are planted in our fields in ground especially prepared for them, thus producing Bulbs of wonderful vitality.

Gladiolus Collection

Our Gladiolus Collection is proving so popular that we again offer it in the finest and latest creations. In this mixture you will find all the colors of the rainbow from white to the most delicate shades of pink lavender and red. In order to have a continuation of bloom through the season one should make several plantings at intervals of four weeks, beginning middle of January, continuing through June. Gladiolus are not only one of the very finest bed and border plants but is unsurpassed as a cut flower. For if when cut as the first buds open, they will give a succession of flowers for a week. Prices: Fine blooming size bulbs, 35c per doz.; 3 doz. for \$1.00.

Tuberose.

Miscellaneous Plants

Bedding Plants

No home is complete until the proper decorations have been placed in the several rooms and on the verandas, also porch and window boxes that will break up the harshness of the walls and corners. By the use of pot plants a solitary home is changed to an attractive, inviting, restful

abode filled with such happiness and cheer as will truly carry the meaning of HOME, SWEET HOME. In our greenhouse department we are endeavoring to produce strong healthy plants in such profusion of variety that you may select to suit your particular needs.

PERFECTION HARDY CHRYSANTHEMUMS

Christmas Gold. Rich deep tones of gold, and a favorite in its color. Prices: 15c each; \$1.50 per doz.

Lillian Doty. Beautifully large flower, shell pink. Extra fine. Prices: 15c each; \$1.50 per doz.

CHRYSANTHEMUM MIXTURE

Of all the old favorites. This includes a wide range of beautiful colors. Prices: 12 plants for 50c.

GERANIUM

S. A. Nutt. Crimson Red. This is the finest of dark crimson Geranium; has now taken the lead as a bedding Geranium.

Madame Landry. A distinct salmon-pink with a slight scarlet shading. This is an exceptional variety, producing enormous trusses and florets on long stems; very hardy.

Beaute Poitevine. Light Pink. Beautiful shade of shrimp pink. This variety is a universal favorite and deserves its reputation.

Ricard. Vermillion. Most beautiful shade of bright vermillion. A grand variety.

Jean Viaud. Rich Pink. This is the best large flowering double pink Geranium; color is the richest deep pink. If you want a large flowering Geranium this is the one to plant.

Buchner. Pure White. The best white Geranium for all uses.

Geranium Prices: 20c each; 3 for 50c.

PELARGONIUMS

Lady Washington Geraniums. One of the grandest of all flowering plants; does not resemble the common Geranium in foliage or in bloom; more beautiful in every way. The Lady Washington Geranium is the handsomest of all flowers; once seen never forgotten. We have the best named varieties for the South.

Pelargonium.

Easter Greeting. Earliest and very large fiery red florets; only kind that blooms in beds as well as in pots all summer.

Gardener's Joy. Ground color of apple-blossom pink, the two upper petals having blotches of carbon-brown.

Lucy Becker. This good novelty is a sport from Easter Greeting, and like it in every way except color which is rosy pink; even a better bloomer. Prices: 35c each; 3 for 90c.

Perfection Mixture

GLADIOLUS COLLECTION

Fine Blooming Size Bulbs

35c per dozen; 3 dozen for \$1.00.

Yucca.

PANSIES

One of the most satisfactory plants. We have the choicest large flowering sort in an assortment of colors unsurpassed.

There is no flower more admired than the Pansy. Our assortment of colors embraces Striped, Spotted, Bordered, Fringed, Ruffled and Scalloped, in Rainbow colors, with rich velvety texture. Prices: 12 for 25c; 50 for 75c; 100 for \$1.25.

SALVIA

No plant is more popular in the South for bedding, from late summer until late fall; until frost it is a mass of bloom of fiery red unequalled by any other flower on our list. Prices: 10c each; doz. \$1.00.

SHASTA DAISY

One of the marvelous introductions in the flower line. Very hardy perennial with large free blooming flowers that last two weeks after being cut. Prices: 10c each; 3 for 25c.

COLEUS

The Coleus is aptly called the gardener's paint box. We have a superb assortment of the most brilliant colors; fine for pots, bedding; used as bedding plants in parks and lawns everywhere. The following are all bush varieties:

Trailing Queen Coleus. Center of leaves bright red or pink with a broad border of emerald green; its long branches drooping gracefully in festoons two or three feet long, making a very showy plant for hanging baskets. Prices: 15c each; 2 for 25c.

Christmas Gem Coleus. Leaves are immense, 8 to 12 inches long; cannot be excelled as a pot plant, growing 2 to 3 feet high; leaves of bright carmine shading to deep maroon with margins of yellow and green. Prices: 25c each; 3 for 60c.

Helen Coleus. Leaves very beautiful, medium large, being six to eight inches long; in color the center is a beautiful pink varying to carmine bordered on the edges with a band of pea green mottled with maroon. Makes a beautiful pot plant growing two to three feet high. A new beauty. 25c each; 3 for 60c.

Yucca (Soft Leaf)

A conspicuous plant with soft evergreen foliage. The large cluster of creamy white flowers produced in Summer makes a fine effect. Excellent for massing. 10c each, 3 for 25c. 3 years old, 30c each.

Pansies.

PERFECTION MAMMOTH VERBENA

Free flowering, half hardy perennial of low spreading growth, usually treated as an annual. They make fine beds and edging. Our Verbenas have been carefully selected and can recommend them as the very best that you can obtain. The trusses and individual flowers of our Mammoth Verbenas are of brilliant colors, free-blooming, and are vigorous growers.

Purple Glory. Richest Purple, and a very heavy grower; very hardy.

Firefly. Scarlet with white center, making it very attractive.

Lucifer. Vivid Scarlet, one of the best for porch boxes.

Mayflower. True Pink. The tallest growing of the Verbena family.

True Beauty. Lavender. This is one of the most delicate in colors in the Verbenas. Admired by all. 25c per dozen plants.

Prices of Mammoth Verbenas: \$1.50 per 100.

PETUNIAS

A splendid assortment made up of California Giants and Ruffled Petunias in a wonderful assortment of colors and forms. These are the most beautiful of all the Petunias. Fine for porch boxes. Prices: 10c each; \$1.00 per doz.

VIOLETS

Princess of Wales. Violet blue, single scented and a good grower. Fine for edging. 5c each; 50c per doz.

Petunia.

Flowering Begonias

Begonias are fine to plant on the north side of houses or in front of porches; will do well in pots in the shade; make lovely house plants, as the foliage and flowers are extremely ornamental and are in great demand.

Chatelaine Supreme. New everblooming Begonia. Finest bloomer known; low bushy habit and literally covered in a wealth of beautiful Christmas red flowers, with yellow stamens. Prices: 30c each; 3 for 80c.

Coralline Lucerne. Wonderful new Begonia bearing immense flower clusters of bright coral red, changing to delicate pink. Every lady who has seen it in bloom has bought one. Prices: 25c each; 3 for 70c.

Alba Picta. Long thick leaves, silvery spotted with pink flowers. Prices: 20c each; 3 for 50c.

Alba Perfecta, or White Rubra. Medium long light green leaves; large trusses of pure white flowers with yellow stamens. Prices: 20c each; 3 for 50c.

Sandersonii. A coral Begonia with scarlet crimson flowers, blooming continually. Prices: 25c each; 3 for 60c.

Feastii or Beefsteak Begonia. Of spreading habit, leaves circular and of extra

heavy texture, red underneath, giving the effect of a beefsteak, glossy olive green above. Flowers dainty coral red. Grown as easy as a Geranium. Prices: 25c each; 3 for 70c.

Star Begonia. Very large leaves of a rich green with reddish markings, velvety surface; bloom is a magnificent pink borne in spray like clusters lifted quite clear of the foliage. 40c each; 3 for \$1.10.

Angel Wings Begonia. A very sturdy grower, with long pointed thin green leaves drooping, giving them the appearance of angel wings bearing clusters of immense pink flowers with pink stamen. The best of the large growing Begonias. Prices: 20c each; 3 for 50c.

Mammoth Leaved Rex Begonia. The most wonderful Begonia in the world. Mammoth leaves of rich metallic lustre, colors blending from brightest green, glistening silver and orange to beautiful plum hues. Flowers blush-pink. Prices: 35c each; 3 for \$1.00.

Ferns and Decorative Plants

No home ought to be without Ferns, which serve as splendid decorative plants in the house, as well as for hanging baskets and porch boxes.

Boston Fern (*Nephrolepis*). We have some beautiful specimens. The fronds frequently attain a length of five to six feet; graceful drooping habit. It can be used as a house plant or under shade trees in summer. This is a standard and most popular variety. Fine Young Plants, 20c; Medium, 25c; Extra Strong Plants, 75c.

Ostrich Plume (*Nephrolepis*). It has taken gold medals wherever shown, and is one of the most valuable ferns introduced in many years. The decorative fronds are made up of many leaflets that are finely divided, making it a charming fern. Fine Young Plants, 30c; Specimen Plants, \$1.00.

The Wannamaker Fern (*Nephrolepis*). A new Fern of beauty. Long, narrow, gracefully drooping fronds. It is not so compact growing so is very airy and especially suitable for growing in the house. It is very durable and a rapid grower, quite distinct from other Ferns. Prices: 30c each. Large plants, 65c and 90c each.

Exalta or Sword Fern. This fern is without doubt the most popular fern for the living room, being very showy and easy to grow. They are grown in pots on pedestals or in hanging baskets or window boxes, thus showing off their wonderful plumey fronds to the best advantage. Prices: 25c each. Medium size, 60c.

Roosevelt (*Nephrolepis*). There is no Fern that will compare with this new and charming variety; it is generally like the Boston Fern, but produces many more fronds, making it bushier and more handsome. Its superiority should place it in the hands of every Fern admirer. Fine Young Plants, 25c; Extra Strong ones, 75c each.

Big Four Fern (*Nephrolepis*). Most wonderful new fern with the grace of the Boston, the wavy effect of the Roosevelt, the fluffiness of an ostrich plume, and the uniqueness of a fish tail. Fine Young Plants, 25c; Extra Strong ones, \$1.00.

Baby's Breath Fern. This is the most delicate of all lace Ferns and really looks like filagree work. It is finer and more ornamental than any of the others. And makes a Table Fern par excellence. Fine Young Plants, 30c and 50c each.

Feather Fern (*Asparagus Sprengeri*). A magnificent porch or basket plant in the South. The fronds or leaves grow four to five feet long. When cold weather comes it makes a splendid house plant and will succeed under most adverse conditions. Fine Young Plants, 10c each; 6 for 50c; Large size, 60c.

Basket of Ferns and Vines.

Lace Fern (*Asparagus Plumosus nanus*). A tall climbing decorative plant and one of the rarest beauty. Its bright green foliage is extremely fine and plume-like. The fronds grow from 6 to 8 inches in width, and when cut retain their color and shape for weeks. Plants may be grown as pot plants or form a bushy climber, and thrive under practically all conditions; it likes a rich soil. Prices: 10c each; 6 for 50c; Large size, 60c.

RAINBOW FERN

All the beautiful colors of the rainbow; leaves of a fine lace-like nature that is admired by all who see it. It is one of the most beautiful of plants; very hardy. Prices: 20c each; 2 for 35c.

ASPIDISTRA

A beautiful plant with large, lace leather-like leaves; a rich deep green in color. Unusually decorative and an elegant window or porch plant of the easiest culture. Extra. Fine Plants, \$1.00 each.

FOUNTAIN PLANT

Beautiful plant with slender drooping leaves of several shades of green with delicate striping of yellow and red. Prices: 20c each; 2 for 35c.

EVERLASTING BLOOMER or IMPATIENS

Sultani. A mass of orange pink flowers.

Pink Beauty. Clear rose pink.

Salmon Queen. Light salmon color, a new one. 15c each; 3 for 40c.

UMBRELLA PLANT

(*Cyprus alternifolius*)

This is a plant of the easiest culture, and a large specimen is as handsome as a palm for decoration. It makes an extra fine pot plant, or can be used in baskets or vases with charming effect. 20c each.

ZEBRA PLANT

Highly prized decorative plants from South America. Large glossy dark green leaves, variegated and veined with yellow and white, resembling in a manner those of a well marked, broad-leaved Croton. 25c each; 3 for 65c.

ENGLISH IVY

The well known English Ivy. An excellent covering for walls and tree trunks. Prices: 25c each; 3 for 65c.

WANDERING JEW

This fine trailing plant is very popular for baskets and window boxes. In three colors—Green, Red Striped, and White Variegated. Prices: 10c each; 3 for 25c.

SNAKE PLANT (*Sansevieria Zeylanica*)

A beautiful plant, especially adapted to house culture during cooler months, and for porches during summer. Leaves are beautiful striped cross-wise with white variegation on a green ground. Withstands dust and drying out without damage, and can be placed in any part of a room and do well. A beautifully decorative plant for vases and baskets. Prices: 20c each; Specimens, 75c.

ROYAL PURPLE PLANT

Purple foliage and unusually popular on account of its brilliant exquisite coloring, surpassing the finest *Coleus* or *Begonia* in the beauty of its leaves. 25c each. Specimen Plants, 50c.

FICUS ELASTICA (*India Rubber Tree*)

This is the common rubber tree grown so much as a decorative house plant. The leaves grow to 12 inches in length, are very dark glossy green, leathery in texture. As a decorative plant it is very easy to culture and has a handsome appearance.

Medium, 50c each; Large, 75c; Extra Large, \$1.00; Specimen, \$1.50.

CROTONS

Splendid plants with variegated foliage both narrow and broad, requiring plenty of moisture. No other genus of decorative plants can furnish such a variety of color. Nothing serves better to give a delirious riot of color than Crotons. They grow well in pots and tubs and give a bright tropical effect to good advantage. Prices: 50c each; Medium, 75c; Large, \$1.00; Extra Large, \$2.00.

TRAILING VINCA (*Periwinkle*)

A beautiful variegated trailing vine, adapted for hanging baskets and vases. The leaves are a glossy green broadly margined a creamy white. Flowers blue. Most popular vase plant grown. 15c each; 2 for 25c; Large Size, 25c.

Special Offer

PORCH BOX, VASE, AND HANGING BASKET PLANT COLLECTION

One should make several plantings about four weeks apart in the spring till July 1st, so you may have blooms of these fine flowers all summer long.

Fine blooming size bulbs, 35c per dozen; 3 doz. for \$1.00.

Satsuma Orange Grove.

CITRUS FRUITS

SATSUMA ORANGES

In planning your Satsuma grove and looking into the future, do so with the same idea in mind as we did when we secured the bud-wood for our Satsuma Trees. We went into the individual record of each grove tree from which we cut the bud-wood. They had to be in good condition and show a fine record for many years past producing heavy crops of good fruit. Every grove has its number of drones and weak trees caused by poor selection of bud-wood. In buying your trees see the individual trees from which the bud-wood was cut, examine their past individual records. If you don't do so you are gambling with drones and weak trees. We invite you to examine the records of our trees so we can show you we are building for better Satsuma Groves. This last season we sold all but 2 per cent of our entire stock, attesting to the fact that the Old Growers are planting Record Trees. We have no old stock that we have been carrying along for years, but nice young

well grown trees. Make your future grove a planting of Perfection Brand Individual Tree Record Trees, and have no regrets later on.

Our Nurseries are not infested with Nut Grass or other noxious weeds.

Satsumas are one of the best fruits to plant along the gulf coast, they standing the winds, and give quick return on the investment. In the young orchards there can be many kinds of crops raised during the first and second seasons of their planting; by that time they have attained a size where they are large enough to use all the ground and give some return in fruit. We are always glad to assist any one contemplating planting a grove.

3 to 4 feet.....	.35	2.50

Tane-Nashi Persimmon.

Pecans

We really believe that a Pecan Grove, properly cared for, is a better investment than life insurance. Properly handled, Pecan Trees will begin paying dividends in from five to seven years. The returns increase as the tree grows older. As shade trees the Pecan is second to none, and they should be planted wherever space is available. In arranging the home orchard we recommend that Pecan Trees be planted 60 feet apart each way. The Pecan is an extremely long-lived tree.

In planting, the trees should be planted as deep or a trifle deeper than they stood in the nursery row, and if the Summer after they are planted is extremely dry, the trees should be well watered. Care should be used in planting to see that the roots are firmly placed in the soil. They should be carefully cultivated and fertilized. The only pruning necessary is to shape the head as desired, and this, of course, should be done during the first year's growth.

Pecan Trees cannot be shipped by mail.

Pecan Prices as follows:

	Each.	10.	100.

Plant Food Makes 'Em Grow

A wonderful plant food—Plant Food is a complete, quick-acting fertilizer, containing in concentrated form the plant foods and soil sweetness used by professional gardeners and florists. It is clean, odorless and safe to use. Increases foliage, enhances the color. 25c per package (30c postpaid).

Red Hanging Baskets

These Hanging Baskets are equipped with a round wire band which fits under the shoulder, and to which are attached the wires for hanging the basket. By so supporting the basket we have been able to do away with the holes in the side near the top, making it possible to water the plant without the water running out through the holes, discoloring the pot, and soiling the floor. Each \$1.00.

ROSE GARDENS

Full blooming, disease resisting, rose bushes must have plenty of plant food. Two Fertilis Tablets dissolved in a quart of water and applied twice a month from late March through August—on the roots, not on the foliage—will improve the life of the bush and give large, beautiful and fragrant flowers.

Or, if you prefer—put two Fertilis Tablets in the earth, four inches away from the stock. Apply twice a month.

VEGETABLES

Tender, succulent and crisp vegetables—fresh from your own garden—can be raised easily with the aid of Fertilis Tablets. There's none of the disagreeable mussy work that you encounter in using manures or bulk fertilizer. The concentrated plant food in the tablets, makes Fertilis Tablets the favorite. When applying Fertilis Tablets, you merely dissolve two tablets in each quart of water and sprinkle from a watering can. Pour the solution on the roots of the vegetables—not on the foliage.

Or if you prefer—place one Fertilis Tablet every six to eight inches along the rows—or one tablet to a hill—as in the case of corn or tomatoes.

Fertilis Tablets promote early growth and aid in making strong, disease-resisting plants.

Dwarf or Standard varieties of fruit trees are also benefited by Fertilis Tablets. Place four tablets eight inches away from the trunk, around the tree—or dissolve two tablets in each quart of water used.

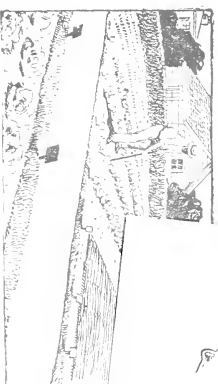

GARDENS

Your flowers, bushes and vines will grow more luxuriantly if they receive plant food in the form of Fertilis Tablets.

When you first set out plants or bushes, dissolve two Fertilis Tablets in a quart of water, and pour on the soil around the roots. Applications can be made during the spring or summer.

Keep the earth well stirred up around the plants, and spray with proper insecticides and fungicides to combat attacks of insects and plant diseases.

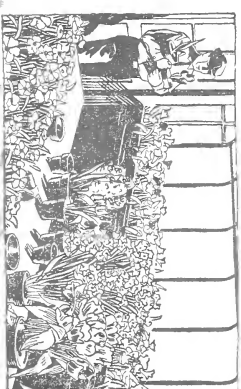

A tablet, placed once a month in the earth near the stock of the plant, is also a satisfactory method.

GREEN HOUSE PLANTS

Flowers or vegetables forced in green houses or conservatories require just the plant foods which Fertilis Tablets supply.

In general, follow the directions given under "Vegetables," "Gardens" and "Potted Plants."

CAUTION: Plants can be overfed—Follow these directions carefully.
